|---------------------------------|--|
| PRODUCT NAME | TRAX |
| PRODUCT TYPE | Software & Hardware |
| APPLICATION/S | A software package for nursery schools which enables the staff to record observations of children to the standards determined by the DfES and QCA. All observations are recorded in accordance with EEL standards. |
| PRODUCT | <p>The product allows nursery staff to record observations during the day on a hand-held PC to provide a database of teachers, children and their individual achievements.</p> <p>In addition to the written observations, photographs can be taken and included in each child's record as visual evidence of achievement. TRAX also includes the facility to record sounds such as singing and talking.</p> <p>The hand held PC stores information on the existing level of achievement of each child and operates as a prompt to staff to monitor & record the next stepping stones.</p> <p>The information captured in the hand held device can be transferred wirelessly or via a cradle to the main system (via the Internet). It is then available instantly and can be used to generate colour reports, including the Foundation Stage Profile, in the Government's recommended format.</p> <p style="background-color: #00ff00; color: black; text-align: center;">NEED SCREEN GRABS/VISUALS FOR THIS SECTION</p> |
